EDUCATION

Coder Foundry, Remote— *Web Development*

JUL 2022 - DEC 2022

Designed several business-oriented web applications, using ASP.NET Core MVC.

PROJECTS

Ticket Tracker — *Web Application*

Managed all stages of Web site creation, from initial design and architecture to development, deployment, and management of Web site.

Implemented ASP.NET Core identity authentication, role-based authorization, multitenancy, PostgreSQL database, and data visualization graphs.

Integrated multiple front-end development libraries to build an intuitive and responsive website.

EXPERIENCE

Spec-Build Systems, San Diego— *Factory Laborer*

NOV 2021 - JUL 2022

Operated the machines proficiently and checked the product samples.

Assisted machine operators, assemblers, and other workers.

Ajinomoto Foods, San Diego— *Line Operator*

FEB 2021 - AUG 2021

Maintained the machinery necessary to perform specialized tasks.

Documented daily production data, and submitted accurate logs to keep management up-to-date.
